ePortfolio Update – 03 August 2016

In accordance with our last communication, we are now in a position to begin updating ePortfolio v2 with historic assessment data. The process is underway for those Registrars who enrolled in 2015.

Those Registrars who began their training on the 2010 curriculum will be able to join this process once their curriculum mapping exercise has been completed and FPH is informed of the outcome. FPH will gather this information using a document which will be circulated in the coming weeks, in line with our strategy for managing the workload. Registrars closest to CCT will be given priority in this work.

As reported in our previous communication, we continue to work closely with our IT providers to implement refinements to ePortfolio v2 and to provide a download function which will allow Registrars to extract key data from the system, including Activity Summary Sheets and progress reports.

We will provide a further communication on Monday 08 August.

Kind regards,
FPH Education & Training Team
