ePortfolio Update – 27 July 2016

Since ePortfolio v2 went live last Friday, discussion has been taking place to determine the most efficient means of updating the system with historic, paper-based assessment data, both for those Registrars who started training in August 2015 and those who have transitioned to the new curriculum. These discussions are close to being finalised pending agreement and ratification of the outcome by the FPH Education Committee. We hope to be able to send information and instruction by Friday 29 July.

Concurrently, work continues with implementation of refinements to ePortfolio v2 in the live environment; we are also setting out our specification for a download function which will allow Registrars to extract key data from the system, including Activity Summary Sheets and progress reports.

We will provide a further communication on Friday 29 July.

Kind regards,
FPH Education & Training Team
