Key Area 10 Assessment:

Evaluation form for KA 10 Panel

As part of the curriculum review process it was recognised that there was a need to formally assess Specialty Registrars ability to integrate and apply competencies for practice. As such Key Area 10: Integration and Application of Competences for Consultant Practice, was introduced with the following aim:

"*To be able to demonstrate the consistent use of sound judgment to select from a range of advanced public health expertise and skills, and to use them effectively, working at senior organisational levels, to deliver improved population health in complex and unpredictable environments.*"

It is envisaged that a KA 10 panel will support the Educational Supervisor and Registrar in determining progress in KA 10 Learning Outcomes and help to identify any developmental needs in this Key Area.

As this is a new area of assessment the Curriculum & Assessment committee is looking for feedback from those regions who have carried out the KA 10 panel about their experience and how this could be improved.

As such if you complete the following evaluation form and submit to Gareth Cooke, Curriculum & Courses Coordinator, garethcooke@fph.org.uk

Name		Region	
Email		Role	
Date KA10 was assessed			

Was the KA 10 panel effective in providing support to the Educational Supervisor and Registrar in this Key Area?

What ways could this KA panel be improved?

Was the guidance and documentation provided sufficient in order to carry out the KA10 panel? Do you have any suggestions to improve these?

What additional support, if any is required from the Faculty in order to deliver the KA10 panel?

Any additional comments regarding this process please add here:
